

For our team in Pfungstadt, we are looking for a **Product Owner / Product Manager Salesforce (m/f/d)**

Your tasks

- technical contact for an IT security product; in close cooperation with the development team and Sales as well as our customers
- first point of contact for everything to do with Salesforce development and strategy
- software conception in an agile (Scrum) team
- defining and managing requirements in the form of Scrum User Stories

Our expectations

- a degree in (business) informatics or business administration with a technical background
- analytical thinking and structured working methods
- ideally, work experience of at least six months, preferably in Product Management or as a Business Analyst
- content knowledge of Scrum
- technical understanding of network communication
- desirable: First experience using Salesforce as a user
- analytical approach and curiosity to find out how something works and not just whether it works
- quick comprehension
- sense of responsibility, commitment, ability to work in a team
- fluent in German and English (written and spoken)

We offer

- a permanent position and an attractive workplace in an innovative high-tech enterprise
- opportunity to contribute to a growing standard solution for the IT security market
- valuable domain knowledge in the IT security sector
- high-quality work tools like UHD monitors and ultrabooks
- a respectful and trustful office culture
- an attractive and competitive salary
